Chetwynd, British Columbia, Canada, V0C1J0

Dedicated and highly motivated software engineer with 11+ years of experience in creating and executing innovative software solutions to enhance business productivity. Skilled in various technologies such as PHP, C#, Java, JavaScript, HTML, CSS, SQL, and React. Experienced in working on team-oriented software development projects and agile methodologies in a fast-paced, deadline-driven environment to steer timely project completion. I am skilled in debugging, troubleshooting, and problem-solving, with a passion for creating efficient and user-friendly applications.

◈ WORK HISTORY

IT Help Desk Coordinator / Administrator

West Moberly First Nation | Moberly Lake, BC, Canada | June 2024 - Present

- Set up equipment for employee use, performed and ensured proper cables, operating systems, and appropriate software installation.
- Managed virtualization infrastructure (VMware, Hyper-V), including provisioning, snapshots, and backup using Veeam.
- Administered and maintained Windows and/or Linux servers, ensuring high availability, optimal performance, and security compliance.
- Managed the company's Microsoft admin account, overseeing user access, security, licenses, and support for Microsoft 365 services
- Updated the website and managed FB page postings to ensure engaging content, consistent branding, and improved audience interaction.
- Maintained the 3CX PBX system, including SIP trunks and call routing.
- Managed IT department operations and coordinated with vendors to ensure efficient service delivery and support.
- Conducted software training on Microsoft 365, Teams, and Windows OS features to enhance productivity and improve user proficiency.

Senior Software Developer

Shiptek Solution Corp | San Pedro City, Philippines | February 2020 – July 2023

- Led and managed a team of backend developers in developing logistics software using .NET, NodeJS, and REST API.
- Created, maintained, and monitored the entire AWS cloud infrastructure of the company.
- Involved in daily scrum (Agile) meetings, which improved team communications and project workflow.
- Collaborated with cross-functional teams to implement RESTful APIs and ensure seamless frontend system integration.
- Led the payment and offshore application integration development, while ensuring all requirements were accurately met.
- Designed and developed scalable backend services using Microservices architecture, MVC pattern, Domain-Driven Design, ensuring modular, maintainable, and efficient solutions.
- Conducted comprehensive code reviews, ensuring adherence to coding standards and improving overall code quality.

Full Stack Developer

GVC | Pasay City, Philippines | July 2018 – February 2020

- Developed and designed full-stack Java Spring Boot and React JS marketing campaign applications.
- Determined operational feasibility by evaluating analysis, problem definition, requirements, solution development, and proposed solutions.
- Debugged and troubleshoot code-related issues/defects to ensure the application remained functional.
- Managed database in PostgreSQL to optimize queries, reducing response time for critical data operations.
- Contributed to the architecture design of complex software systems, ensuring scalability and maintainability.
- Established clear communication channels between developers, QA testers, and stakeholders, resulting in better collaboration, leading to faster delivery of key features.
- Participated in daily scrums (Agile). Provided technical advice on bugs andenhancements.

Programmer

EK Consulting & Management Service | Makati City, Philippines | July 2017 – July 2018

- Develop existing software applications (sportsbook, website, etc.)
- Develops and maintains databases using MSSQL & Redis.
- Ensured predictable latency, reliability, and failure recovery in a real-time database by reorganizing processes.

Web Programmer

Pacific Sea BPO Services Inc. | Makati City, Philippines | January 2017 – July 2017

- Conducted regular security audits, identifying and mitigating risks.
- Migrated Windows Server to Ubuntu Linux and built a strong firewall.
- Monitored servers and set up Nagios for alerts.
- Maintained and enhanced the application's features to effectively fix the bugs and optimize the overall performance.

Jr Programmer

Sterling Paper | Makati City, Philippines | September 2015 – January 2017

- Successfully migrated the old payroll and HRIS system to a new application using the PHP CodeIgniter framework and Bootstrap template.
- Developed the company's organizational website using WordPress.
- Maintained and configured Mail Server using Postfix, Dovecot.
- Successfully migrated physical servers to the VMware vSphere server.

Programmer, Tech Support

Amertron Inc | Parañaque City, Philippines | August 2013 – July 2015

- Created a system report for MES (Manufacturing Execution System) using phpExcel and phpChart.
- Developed an automated accounting process for vouchers and cheques.
- Managed and maintained the Servers, PC's, Routers, and Switches.

◈ CORE SKILLS

Area of Expertise: Project Management, Strategic Planning & Execution, Scrum & Agile Methodologies, Continuous Process Improvement, System Architecture, Application Design & Development

Soft Skills: Communication, Team Player, Critical Thinking, Adaptability, Problem Solving, Resourcefulness, Time Management, Attention to Details

Programming Languages: PHP, HTML/HTML5, CSS, JavaScript, C#, JAVA, TypeScript, NodeJS

Databases: MySQL, MSSQL, PostgreSQL, REDIS, MongoDB

Framework/Library: .NET, .NET Core, Entity Framework, Laravel, AngularJS, Redux, VueJS, CodeIgniter, Ionize, WordPress, LINQ, A JAX, jQuery, Tailwind, Bootstrap

APIs: REST API, Web API, GraphQL

DevOps: AWS, AWS EC2, AWS Lambda, Amazon API Gateway, AWS CloudFront, AWS RDS, AWS Elastic Compute, AWS S3, AWS Elastic Beanstalk, Docker, CI/CD, Ubuntu Server, Windows Server

Software Architecture/Patterns: MVC, MVVM, Domain-Driven Design, Microservices, N-tier

◈ EDUCATION

Bachelor of Science in Information Technology
University of the City of Muntinlupa, Philippines | June 2009 – April 2013

◈ CERTIFICATES

The Web Developer Bootcamp 2024 / udemy.com (April 2024)
CompTIA Security + (In Progress)
Emergency First Aid Level 1 (July 2025)
BC BILL 14 (April 2024)
Class 5 Driver Licence (BC, Canada)
